Computer Science Engineering Student | Aspiring Software Developer

PROFESSIONAL SUMMARY

Third-year Computer Science Engineering student at New Horizon College of Engineering with a strong academic record and hands-on experience developing web and mobile application projects.

Familiar with Java, Python, JavaScript, React, Flutter, and database fundamentals. Interested in software development and building practical, user-focused solutions; seeking opportunities to learn, contribute, and grow through internship and project based training.

EDUCATION

New Horizon College of Engineering, Bengaluru **2024-2028**
Bachelor of Engineering ,Computer Science - 8.89 CGPA (V)

K. H. Patil PU Science College, Hubli **2021-2023**
Classes XI–XII - Score: 92.8%

PROJECTS

• **H-Mart** – Korean Grocery E-Commerce Website – React, Vite, Tailwind CSS
- Developing a responsive e-commerce platform featuring Korean groceries, snacks, fresh produce, and K-beauty products, with backend integration, payment processing, and admin dashboard planned.

• **TabRemind** – Medication Reminder App – Flutter, Dart
- Developing a medication management app with scheduled reminders, recurring medication routines, and dose tracking; interactive blister-pack animations are in progress, with a patient–doctor portal planned for future development.

• **P2P Companion** – Cryptocurrency Price Comparison Platform – SvelteKit, Svelte, JavaScript
- Developed and deployed a web application for comparing cryptocurrency prices across multiple exchanges, including Binance, Bybit, OKX, KuCoin, and MEXC.

TECHNICAL SKILLS
